## Moldova

Updated: May 2023

### ENERGY EFFICIENCY OF MINISTRY OF DEFENSE INFRASTRUCTURE

**Official project title:** *Energy Efficiency of MoD infrastructure*

**About:** Project is piloting an evidence-based approach to energy efficiency (EE) reconstruction of the buildings belonging to public authorities. It will set the ground for evidence-based budgeting within the central public administration addressing the EE reconstruction of public buildings.

Project conducts the audits of the selected buildings to develop a feasibility study to support the use the new energy saving technologies and use of additional renewable energy sources.

**Status:** ongoing

**Implementation period:** since 2023
